

## JR FLIGHT SERVICES, INC.

# GETTING A NEW AIRCRAFT?

## NEED SOMEONE WHO KNOWS HOW TO PROPERLY STOCK YOUR NEW AIRCRAFT OR A CONSULTATION ON INTERIOR LAYOUT THAT FUNCTIONS FOR PASSENGERS AND CREW?

Whether purchasing a small or large cabin aircraft, selecting the right person to assist with interior cabin needs is very important for passenger satisfaction.

Stocking of aircraft provisions is another important element - whether your aircraft is "self-service" or use the "onboard services of a professional trained flight attendant". We provide an "on-site evaluation" of your aircraft to determine your cabin service needs, and specialize in adding those personal touches to exceed passenger expectation. Proper cabin management ensures your passengers are met with their favorite beverages, onboard catering and incidentals required during flight.

With years of experience onboard corporate aircraft, JR Flight Services, Inc. has the knowledge and expertise to ensure your aircraft is ready for the most efficient and safe passenger service in the air and on the ground.

### Services available:

#### ✈ Cabin Consulting Services

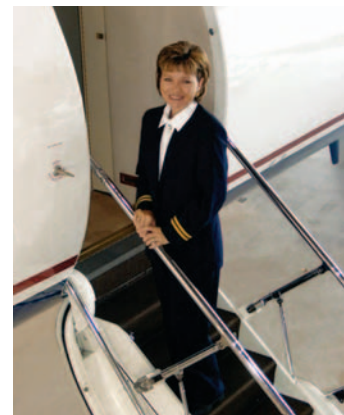

Aircraft Delivery Support including:

Provision and document all onboard amenities.

Galley/Cabin Equipment Familiarization training for crew and passengers.

Cabin Service, Food Safety/Handling and additional in-flight documentation available upon request.
